WHAT YOU NEED TO KNOW:

If you participate in the ZOOM meeting on your computer, here are a couple of tips:

1. Click on the link that is provided. You will be asked if you want to join with video on.
2. If your computer runs slow, say NO. You will still be able to **see** the screen, people just won't be able to see you. Or if your computer starts to pixelate or freeze, turn the video off by going to your general privacy settings and turn it off.
3. You may have to wait until Tabby lets you in—shouldn't take long, just be patient.
4. Please be sure and turn radio/TV off or at least down to prevent feedback.
5. You can also mute yourself (in case your dog starts barking and you have to yell at it). You can still hear what's going on in the meeting, folks just won't hear you yelling at you dog.
